"I worked with Scott Hoppe, one of the owners of the family business. He is extremely professional and is dedicated to customer satisfaction. Every time I called him and did not leave a message he would call back immediately to see what I needed. Once I called him about something minor when he was driving and he pulled over to discuss whatever it was with me. I was continually impressed with the attentiveness he gives to his customers."

"We worked with Daniel Hunter. The work and workmanship were both excellent. They were timely and they followed up to make sure we had complete satisfaction with the work, which we did. I would recommend them to anyone."

"American Home Specialist did an excellent job on my siding!!! They did a very good job putting up the siding and they even did a few extra things at no cost. They cleaned up all the old siding and made my yard spotless again. I would recommend them to anyone that needs a roof, siding, or even windows. They are very dependable and respectable."
