*“We recently had our roof replaced by AHS. No one likes having to replace a roof, but our experience with AHS was great. They came out and actually went up on the roof to examine it, unlike other companies that relied on aerial photos to access our roof. Their price was better than other companies, and they worked within our schedule. We love our new roof and have had many neighbors comment on how nice it looks. We were so satisfied, we placed an AHS sign in our yard. If you are looking for a roofer, I am sure you will be very satisfied with the quality of their work, and the professionalism of their employees, one of the owners of the company even came out during and after the installation to make sure we were pleased.”*
