*“What a great company, you can beat the service! We had a few estimates run but found American Home Specialists, Inc. to be the most competitive, and it is not just the pricing it is the durability and warranty of the products used. Scott's and his crew did an excellent job, I appreciated Scott managing the process from beginning to end. His crew was efficient from the start of removing the old shingles, inspecting the existing plywood, and laying the ice shield, drip edges, and new shingle. They completed the job in one day, and made sure the yard was free of debris and nails. I will recommend them to all of my family, friends, and clients. American Home Specialists, Inc is the best roofing company I have had the pleasure of dealing with! I look forward to using them for other renovations to my property in the future!”*
