

American Home Specialists
10 Irongate Drive, Unit C
Waldorf, MD 20602

July 12, 2011

Dear Tasha,

We would highly recommend American Home Specialists for any home restoration project. We used American Home Specialists to replace our roof that was damaged in a hail storm. The process from initial inspection to final payment was smooth and worry-free. Our questions were answered by knowledgeable staff and our phone calls were promptly returned by courteous staff. They always made us aware of any time schedules concerning our project and always worked around our schedule if someone needed to be home. The workers that actually installed the roof were quick and efficient. We were very pleased with their work. They did an excellent job of cleaning up when the job was finished. They were here and gone before we realized it.

We were very pleased with the overall experience we had with American Home Specialists. We would definitely use them for a future project. We highly recommend this company because of their commitment to customer satisfaction. They use quality business practices and workmanship.

Sincerely, Brian and Alexia McIntyre
