

# STORMGUARD<sup>®</sup>

Film Surfaced **Leak Barrier**

## **Safety Warning**

Many roofing activities are hazardous. Take care to comply with all appropriate safety requirements. Do not walk on the membrane before it bonds to the substrate.

**Storage:** StormGuard<sup>®</sup> Leak Barrier rolls must be stored on end under cover and in an area cooler than 100°F (37.78°C). Do NOT double tier pallet rolls.

**Precautionary Note:** The application instructions for this product or the shingles used with this product may require the use of adhesives or cements that contain solvents. Apply these adhesive/cements only as instructed. Application of excess solvent-based adhesives or cements may affect the performance of this product, resulting in the asphalt flowing, dripping and staining.

## **Other Considerations**

### **Release Film Removal**

To improve release in warm weather, before removing the release film turn the membrane over so that the white release film side faces upward and the black side is face down to the deck. In cold weather the black side of the product should face upward.
